

PROLINE[®]
SUPPORT YOUR MUSIC[™]

PL48 Music Stand Assembly Sheet

Thanks for choosing the Proline PL48 music stand. Follow the simple instructions below and in just a few minutes you'll have your new stand assembled and ready for years of use. – *Proline*

ASSEMBLY INSTRUCTIONS:

Step #1:

Remove bolt, washer, and cup washer from bottom of center column.

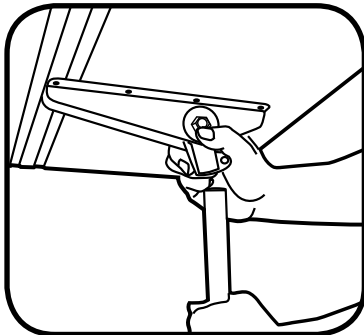

Step #2:

Attach tripod base onto bottom of center column. Fasten using cup washer, washer and bolt.

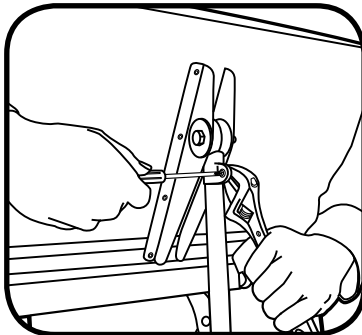

Step #3:

Insert inner shaft fully into neck assembly and twist to secure.

Step #4:

Using screwdriver and wrench, tighten nut and bolt to secure the unit.

CAUTION: Avoid using any type of lubrication on height adjustment shaft, as this may cause the unit to slip.

Proline offers a wide variety of stands, benches, and accessories to support your music. See more at prolinestands.com.

Guitar Stands

FretRest® by Proline® guitar stands protect and stabilize guitars of any type. You can rest assured that your guitar is safe and secure. FretRest® stands are engineered with a distinctive angle for better balance and support; and the protective padding is specially formulated to help protect your guitar's finish. With FretRest®, your guitar is always safe.

Microphone Stands

Proline microphone stands safely and securely maintain the position you set for your microphones to capture the perfect sound - in the studio or during live performance. Stands feature die-cast metal clutches, and a heavy-duty die-cast base or non-skid legs that keep the stand where you set it. We offer a full line of microphone stands to meet all of your recording and performance needs.

Keyboard Stands

Proline's sturdy keyboard stands support medium to full-sized keyboards, as well as DJ gear and mixers. With features like locking height and width adjustments, quick-release levers and fully welded contact points, you get maximum flexibility and support in any rehearsal or performance situation.

Keyboard Benches

Proline keyboard benches have a reinforced steel structure that's easy to set up and take down. Thick foam padding covered by tough tear-resistant vinyl keeps you comfortable and focused throughout your performance. The adjustable height settings suit almost every player, and non-slip rubber contacts ensure the bench stays right where you set it up.

Speaker Stands

Speaker stand features a center steel shaft for maximum support and an aluminum body for lighter weight. These sturdy stands can hold up to 150 pounds. Locking pins are included for extra safety.

Music Stands

Proline sheet music stands are strong yet lightweight, with solid construction to support even the heaviest books. Convenient collapsible design allows for easy transport.

Guitar Parts

Proline offers a huge selection of guitar parts, all made with top-quality components, for today's most popular guitars. Whether you're looking to replace a part or jazz up your guitar, we probably have the part you're looking for, at an affordable price.

Publications

Proline Publications features the best in musical instruction tools including books, software and reference guides. Many of the teaching books include CDs or DVDs that allow you to hear what you see on the page - a key component to mastering the techniques. Proline Publications also features manuscript paper, either standard notation or tablature, for guitar and bass.
